

Colleen O'Rourke

Software Engineer

413-329-3187 | elena.colleen@gmail.com | www.linkedin.com/in/colleenelena | github.com/ceorourke

TECHNOLOGIES

Languages | Python, Javascript (AJAX, JSON), HTML, CSS, SQL

Frameworks/Libraries | Flask, jQuery, Bootstrap, Jinja, SQLAlchemy

Database/Industry Tools | PostgreSQL, Git, GitHub, Command Line

Tools/Software | Google Docs, Jira, Tower, deployment via Jenkins, Subversions via Versions

PROJECTS

Game Recommendations

This app provides video game recommendations to users who aren't sure what to play next. The user can make an account, rate games, and get a recommendation filtered by platform and genre.

Github: https://github.com/ceorourke/game_recommendations

Cat Texts

This app uses the Twilio SMS API to let you text your cat. The user enters information about their cat and can send and receive texts. It also sends a daily reminder to feed your cat at dinner time.

Github: <https://github.com/ceorourke/cat-texts>

WORK EXPERIENCE

Product Manager

July 2015 – April 2017

GREE International Entertainment, Inc., San Francisco, CA

- Projected hard currency spend and conversion rates to USD via data from Tableau dashboards
- Balanced and tracked ~50 events, sales, and direct purchases per month with Jira
- Managed and assigned tasks to team via Jira tickets and Kanban boards
- Performed weekly data deploys to production to push new content via Subversions and Jenkins
- Coordinated with and supported international engineering team on new features and releases
- Provided extensive documentation and training to international transition team

Game Designer

April 2014 – July 2015

GREE International Entertainment, Inc., San Francisco, CA

- Designed and deployed live events on a weekly sprint basis using Subversions and Jenkins
- Triaged with QA and engineering teams to resolve data bugs using Subversions
- Created tools to streamline data entry and reduce development errors using Google Sheets
